- Volta Introduces 4 new variants: Eagle, Cyrus, MandalaX, and PatriotX
- Energi Selalu Baru (ESB) announces strategic collaborations and potential overseas development
- ZKDigimax showcases smart retail assortment at NRF APAC 2024

# 1H24 revenue declines to Rp 4.2 trillion but improving earning quality leads to positive EBITDA growth to Rp 61.3 billion

PT M Cash Integrasi Tbk ("MCASH" or "the Company") booked a revenue of Rp 4.2 trillion in 1H24. Although lower than the Rp 6.6 trillion in 1H23, the Company managed to improve its earnings quality as shown by improvement in gross margin, from 1.7% in 1H23 to 2.4% in 1H24. This is aligned with our value step-up strategy, making the digital product related businesses as MCASH group's trojan horse to build surrounding relevant businesses with high value added. As a result of this, our EBITDA remains running on a positive track, booking an increase of 4.3% YoY to Rp 61.3 billion in 1H24, from Rp 58.8 billion in 1H23.

Meanwhile, net income declined by 80.7% YoY, from Rp 2.0 billion in 1H23 to Rp 377 million in 1H24, mostly caused by the increase in non-cash expenses, particularly in depreciation and amortization (Rp 34.8 billion in 1H23 vs Rp 49.2 billion in 1H24) and forex loss (Rp 29.2 million in 1H23 vs Rp 8.3 billion in 1H24).

#### **Financial Performance: 1H24**

# Telkomsel, Tencent Cloud, and MCASH collaborate to explore palm scanning and verification technology for customer experience enhancement

In June 2024, MCASH, a leading digital infrastructure company in Indonesia, Telkomsel, the leading digital telecommunications company in Indonesia, and Tencent Cloud, one of the world's leading cloud companies, announced a strategic collaboration to explore the adoption of Palm Scanner technology, aimed at enhancing customer service and work environments. The partnership, formalized through a Memorandum of Understanding, will leverage palm verification capabilities to improve the Know Your Customer (KYC) process, making it faster, safer, and more efficient. The collaboration aligns with Telkomsel's vision to lead in digital telecommunications by integrating advanced technology solutions, and solidifies MCASH's role as a tech infrastructure company. By integrating palm scanning technology, MCASH can offer more secure and efficient identity verification solutions, expanding its service offerings and providing innovative digital solutions.

#### Volta Introduces 4 new variants: Eagle, Cyrus, MandalaX, and PatriotX

MCASH's clean energy businesses continue their progress in 2024. Motorcycle sales managed to record 4116 units and 1.2 million battery swap transactions. We can expect even more positive upside in 2H24 with the increased diversity in product assortment along with the fulfillment of future partnerships and pipelines. Earlier this year in May, at the IIMS 2024 Surabaya, Volta introduced 2 new models: the Eagle and the Cyrus adding to the existing line of motorcycles (401, Mandala, and Virgo). At the same event, the Company's clean energy businesses marked their expansion into regions outside of the Jabodetabek area by expanding the Semolis motorcycle rental and rental ownership services to Surabaya and Bali.

**Financial Performance: 1H24** 

During the GIIAS 2024 in July, Volta also launched more powerful products: MandalaX and PatriotX. These models are stronger at 2000 W versus their predecessors of 1500 W, increasing their top speed to 75 km/hr and range to 70 km from the previous 60 km/hr and 60 km. The MandalaX and PatriotX, also priced higher at Rp 25.6 million and Rp 28.8 million before subsidies, respectively, are designed to attract new customers by satisfying a wider market range.

#### **Financial Performance: 1H24**

#### Energi Selalu Baru (ESB) announces strategic collaborations and potential overseas development

In July, Energi Selalu Baru (ESB) and Volta, subsidiaries of MCASH, held an event together with Gentari Green Mobility, a Malaysian clean energy provider, to announce their partnership and expansions plans within Jakarta. At the event, ESB/Volta and Gentari discussed the collaboration details, highlighting the strengths of MCASH's infrastructure and merchant ecosystem along with Gentari's knowledge and technical expertise in regional markets such as Malaysia, Thailand, and Vietnam.

Similarly, ESB announced its potential expansion into the regional market by acquiring a 50% Stake in Infi Asia E-Mobility Pte Ltd. This expansion is set to bring Volta and ESB's motorcycle and battery swapping/charging solutions to the overseas market. ESB also managed to secure strategic investments from LX Ventures and SAIC Capital in its Pre-Series A Fundraising Round. With this, LX and SAIC join Rigel Capital and Twin Towers Ventures in their combined ambition to continue the expansion of Volta and ESB's clean energy products and infrastructure.

#### ZKDigimax showcases smart retail assortment at NRF APAC 2024

MCASH's digital cloud advertising segment, primarily driven by its subsidiary, DMMX, managed to achieve a growth of 28,434 screens in 1H24 compared to 24,434 in 1H23 (+16,4% YoY) and 15,027 number of sites from 13,040 (+15.2% YoY). Meanwhile, in the middle of June 2024, DMMX's subsidiary, ZKDigimax, made a big impression at the first ever National Retail Federation (NRF) Retail's Big Show Exhibition for the Asia-Pacific region, held at the Marina Bay Sands Convention Centre in Singapore. Themed "Fast Track Your Success," this landmark event brought together over 300 exhibitors and more than 5000 retail industry leaders from around the world to explore the future of the industry. Attendees were particularly impressed by ZKDigimax's suite of Al-powered solutions, which include advanced

#### **Financial Performance: 1H24**

capabilities such as text and logo recognition, consumer-targeted advertising, and adaptive shelf content display. A major highlight was ZKDigimax's Indoor LED Room, demonstrating the company's expertise in creating immersive retail environments that enhance customer engagement.
